We are one of the leading and most technically
advanced solar contractors and installer
in Kenya and South Sudan

ABOUT US:

//

over 15 years experience in
design, supply, installation testing
and commissioning of small solar
system, medium sized off grid
system, mini solar grid systems
and grid tied solar system

Who We Are...

We are Kenyas no.1 solar power solution provider with a highly trained and experienced engineering team. We offer design, supply and installation of solar PV and solar thermal systems for domestic, industrial and commercial applications. What is a solar system? A solar system is a combination of solar arrays, charge controller inverter and battery bank for the purpose of generating electricity by harnessing energy from sun rays.

The solar industry has come a long way and we are proud to be part of it. We have reached a point where it's cheaper to install a solar system for industrial and domestic use with a payback period of about 4 years on average. We do the system design based on your power consumption and load and calculate the payback period of your solar system based on your monthly power bill. We have practical experience in solar system design and installation that spans over one and a half decades.

RE: TENDER NO: TENDER NO. REA/2014-2015/PQ/010 TENDER FOR PRE-QUALIFICATION OF SOLAR CONTRACTORS

This is to inform you that your application for prequalification as solar contractor was successful.

However in order to finalize your prequalification and enlist you in our list of approved solar contractors, you are requested to fulfill the following conditions

- i. Submission of a license from ERC for solar contractors
- ii. Submit a performance bond of Kshs 500,000 in form of a bank guarantee within 30 days of this letter.

Please note that allocation of jobs will be done to those who have submitted the above on first come first served basis.

At the time of submission of above requirements please also furnish us with the name of contact person for the company, telephone number and email address. These details should be provided on company's letter head.

RE: NOTIFICATION FOR AWARD /ACCEPTANCE

This is to inform you that your application to tender under GMC/KUSP/012/2018 -2019: -
**SUPPLY, INSTALLATION AND COMMISSIONING OF INTEGRATED SOLAR
STREETLIGHTS IN LOWER KYUMVI** was successful. You have been awarded to supply
install and commission integrated solar streetlights in lower Kyumvi as at your quoted sum of
Ksh.9,532,266.60/=

Kindly note that;

The procuring entity will carry out due diligence by visiting already installed sites and also do
a pre- inspection of a sample of integrated solar streetlight you intend to install.

The commissioning of works should be within 45 days after signing of contract.

You are required to respond in writing to confirm your acceptance of the offer within seven
days from the date of this letter. Contract documents will be forwarded to you not later than
twenty-one days (21 No.) from the date of your acceptance.

Kindly liaise with the Chief Officer-Housing and Urban Development to work out modalities

OUR PRODUCTS

SOLAR PANELS

Tier 1 Jinko solar panels ranging from 250w to 410w are ideal for commercial, industrial and domestic solar systems from mid-sized to MW range systems while Solinc solar panels provide high quality solar panels for domestic and commercial solar system applications with both mono and poly crystalline versions from 20w to 345w. Key features;

- High Power Density - high conversion efficiency which leads to more power output.
- Durability – It has durable PV modules, tested for harsh environmental conditions.
- Advanced glass – High transmission glass, features a unique anti-reflective coating that directs more light on the solar cells resulting in a higher energy yield.
- All weather solar modules
- 25 year linear warranty

SOLAR CHARGE CONTROLLERS

EP charge controllers are high quality charge controllers that have an operating voltage which can be set on the controller according to the batteries used. This sets the right protection against battery overcharge or discharge. Key features are;

- 3 stage intelligent PWM Charging
- 3 charging options
- LCD display design
- Double USB design
- Humanized button settings
- Multiple Load control modes
- Extensive electronic protection
- From 20A - 80A

SOLAR LED STREET LIGHTS

- Super bright solar power LED lighting ranges from 30w to 90w.
- Comes complete with solar panel.
- No expensive wiring is required.
- Plug and Play with no maintenance.
- Long lasting lithium batteries.
- Running hours of 12-16 hours.
- 2 years warranty.
- 30W - 200W available.

SOLAR LED WALL LIGHTS

- Product ranges are 3w, 5w and 7w
- Auto on/off function.
- Simple Installation
- Zero maintenance cost
- No cables required.
- Zero electricity bills.
- Comes with wall extension bracket.
- Running time 14 hours.
- 3W - 12W available.

SOLAR RECHARGEABLE FLOODLIGHTS

- Time switch
- Motion sensor
- Remote control
- Water proof
- 3 charging mode : AC charging, Outdoor solar charging and Car charging
- Ranges from 30w to 200w complete with panel..
- 20W, 30W and 50W available

INVERTER CHARGERS

MUST **ROOMNY**
GENERATORS

1000w to 5000w Roomny pure sine inverter chargers provide seamless transfer of power during black outs and can also be used for solar systems. A top rated inverter in Kenya.

Low frequency, pure sine transformer based Must inverter chargers provide continuous steady power in solar PV system as well as backup systems. Ideal for power back up as well as off grid solar systems. Ranges from 1000w to 12000w.

Key features include;

- Pure sine wave output
- Air cooled type radiator, great energy saving effect.
- Strong loading capacity
- Working modes AC first, battery first, energy saving
- Battery low shut down protection
- Automatic change over between charge and inverter modes

Suitable for office and public facilities, household systems, network transmission equipment, manufacturing, control systems, solar energy systems, oil field, drilling field operations.

- Sunny Island 6000W and 8000W available

SOLAR BATTERIES

RITAR **Trojan** **Gaston** **victron energy**
BATTERY COMPANY Clean energy for life BLUE POWER

Suitable for solar and wind renewable energy storage, mobility and medical equipment. DC series batteries provide superior high integrity and reliability. Available in 100Ah and 200Ah Ritar sealed gel batteries.

Key features include;

- Frequent cyclic charge and discharge.
- Designed for repeated deep-discharge applications.
- Offers 30% more cyclic life than standby series.
- Comes with a 1 year warranty.

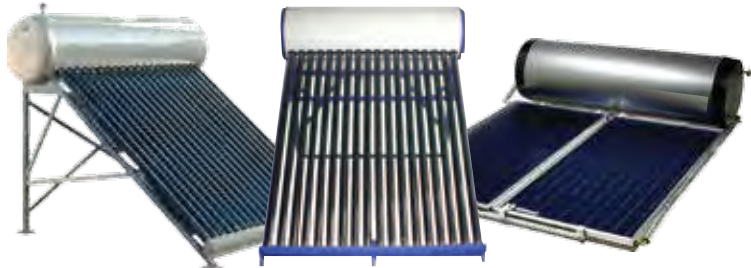

SOLAR FRIDGES

phocos **SunDanzer** **ROOMNY**
GENERATORS

- Very low energy requirement
- 12 v or 24 v dc operating voltage featuring low voltage shutoff
- eco-friendly cooling agent (r-134a)
- mechanical thermostat
- easy-to-clean aluminum lining
- lockable lid • interior light (optional)
- high temperature resistant
- adjustable interior temperature
- highly efficient cooling
- 50Lts, 140Lts, 170Lts and 390Lts available

SOLAR WATER HEATERS

ECO solar water heaters are designed for the most rugged conditions with the option of open or closed loop system. They are available in 200Litre and 300Litre water heating capacity. Its Key features are;

- Absorbing plate
- High transmittance glass
- Polyester Fiber insulation
- Sealing gasket
- Aluminum Alloy Frame
- 150Lts, 200Lts and 300Lts available.

SOLAR WATER PUMPS

Solar DC submersible pumps are high quality products designed for higher flow drinking water supply, livestock watering, pond management and irrigation applications. The dc submersible pumps provide large volumes of water economically and without pollution.

POWER(KW)	VOLTAGE(V)	HORSE POWER(HP)
0.55	40-75	0.75
0.75	58-75	1
1.1	88-110	1.5
2.2	175-230	3

GENERATORS

5kva Roomny power high quality generator machine

- Diesel engine
- Single phase air cooled
- Super silent machine
- Automatic switch
- 1 year warranty

Effective for commercial backup systems, welding, home backup systems and home use projects

1kva and 2kva Roomny diesel powered generator

- good performance
- self stand generator
- portable with wheels
- warranty guarantee.
- 500W - 500Kw available

PERSONAL DETAILS:

- **Date of Birth:** 06th February 1997
- **Gender:** Female
- **Citizenship:** Kenyan
- **Marital Status:** Single

EDUCATION AND PROFESSIONAL QUALIFICATIONS:

- Bachelor of Science in Applied Statistics with Programming
Murang'a University of Technology
2015-2019
- Computer Training (Microsoft Suite)
Intercontinental Institute of Computer and Business Studies
2015
- Kenya Certificate of Secondary Education
The Kenya High School, B Plain
2011-2014
- Kenya Certificate of Primary Education
Kanyagia Primary School, 367 Marks
2002-2010

PERSONAL BRAND STATEMENT:

I am an enlightened, ambitious and motivated individual with a focus in Statistics, Human Resource and Sales sector. I have completed my first **Bachelor's Degree in Applied Statistics with Programming** at Murang'a University of Technology.

I have had a previous experience at ICEA Lions Group as a sales representative. I am currently holding a role of Sales and Marketing Executive at The Green Camel Investments LTD. I have also worked at National Hospital Insurance Fund (**NHIF**) and Almasi Bottlers LTD (**Coca Cola**) as an attaché. In both companies, I managed experiences in Operations, Customer Care Services, Data planning, collection, analysis and Insurance services. I was responsible for managing the company's records and providing detailed analysis of their data at the various departments. Additionally, I have led in various positions at Murang'a University of Technology as well as Murang'a University Christian Union.

That includes as a Secretary of the Union's Executive Council, Technical Department and Electoral College of the Union. I have been a member of the University's Students Electoral College (SEC) in one of the elections therefore managed to have a hand in all the roles of the college.

I have great interpersonal skills. My oral and written skills too have always been an asset in the various capacities I have found myself part. I have therefore embraced running a You Tube channel, sharing Written Articles as well as Public Speaking. I am seeking for an organization to which I can execute my skills and professional competencies for the success of the organization achieving goals and objectives for its competitive advantage; in line to which I'll acquire new technical and soft skills and make an excellent member of their team.

KEY PROFESSIONAL SKILLS:

- Proficiency in Microsoft Suite applications, Internet and R Statistical Software
- Knowledge and proficiency in SPSS, and R Statistical Software
- Adroit in Report Writing, Target Setting, Data Collection and Analytical Skills
- Quality Control Methods
- Ability to establish and maintain effective working relationships with institutional officials and contractors.
- Ability to plan and meet set targets
- Knowledge of preparing of Bill of Quantities and quotation generation for tendering process

PROFESSIONAL EXPERIENCE:

Human Resource Officer
The Green Camel Investments Ltd.
January 2020 to Present

Duties and Responsibilities

- Recruiting, training and developing staff
- Making sure that staff get paid correctly and on time
- Approving job descriptions and advertisements
- Looking after the health, safety and welfare of all employees
- Monitoring staff performance and attendance
- Advising line managers and other employees on employment law and the employer's own employment policies and procedures
- Ensuring candidates have the right to work at the organisation
- Negotiating salaries, contracts, working conditions or redundancy packages with staff and representatives.

Sales Representative
ICEA Lion Group
November 2019 to December 2020

Duties and Responsibilities

- Cross selling insurance policies
- Conducting sales presentations to a range of prospective clients
- Visiting potential clients to evaluate needs and/or promoting products and services
- Negotiating life policy contracts to potential clients with an aim of closing sales

Enumerator
Kenya National Bureau of Statistics
July 2019 to August 2019

Duties and Responsibilities

- Administering all questions to the people of the republic of Kenya and recording responses of all members of households in the assigned Enumeration Areas during the Kenya National Housing and Population Census
- Identifying Boundaries for Enumeration Areas (EAs), locating all structures and visiting all households to list all the usual members before the enumeration exercise
- Obtaining complete and accurate answers and capturing them correctly during the enumeration exercise

Data Entry Clerk
Murang' a Civil Registry
August 2019 to September 2019

Duties and Responsibilities

- Digitalizing birth and death registration certificates data
- Entry of manual data into an updated registration digital system
- Verification of entered data to ensure accurate information is keyed into the system

Attaché
Almasi Bottlers Ltd (Coca Cola)
July 2018 to September 2018

Duties and Responsibilities

- Management of full goods in the warehouse on daily basis
- Preparation of loading reports and maintenance of all record of floor stocks/keep load reports in line with Coca Cola and ISO Standards
- Participation in stock reconciliations exercise in the warehouse
- Verification of inventory computation and adjusting errors for management decision making
- Management and Maintenance of records of all activities and processes pertaining to the warehouse i.e operations staff register e.t.c
- Ensuring FIFO system is followed for all transactions in the warehouse

Attaché
National Hospital Insurance Fund (NHIF)
May 2018 to June 2018

Duties and Responsibilities

- Capturing of claims, confirming of claims, claims examination and filling
- Collaborated with organization technician that, computer cluster are functioning effectively
- Scanning, merging, printing cards and photo card dispatch
- Customer care procedures

- Accounting and audit procedures
- Registration of new members

Secretary

Murang'a University of Technology Christian Union

September 2017 to October 2018

Duties and Responsibilities

- Deal with all the correspondence of The Union.
- Consultation on urgent matters pertaining the administrative aspect of the union
- Responsible for inviting, calling and coordinating the speakers for the Friday fellowships and Sunday services
- Issuing notices conveying all Executive Council meetings and all general meetings of The Union and Keeping minutes of all union meetings
- Keeping the register of all registered Union members and preservation of all records of The Union
- Developing and writing invitation cards, letter heads, appointment letters, recommendation letters, appreciation letters and reports

Student Electoral Commissioner

Murang'a University of Technology

January 2018 to March 2018

Duties and Responsibilities

- Organize, conduct and supervise University Elections according to Student Organization Constitution
- Formulate and implement voter educational programs related to education
- Ensure that free and fair elections are held
- Demarcate schools in accordance with provisions of the constitution
- Compile, maintain, revise and update the voters register
- Ascertain, publish and declare in writing under its seal the results of the elections

Office Assistant

Wambugu-Wangai Public Accountants

May 2016 to August 2016

Duties and Responsibilities

- Management of files and records
- Filing returns with the responsible taxing authority (Kenya Revenue Authority)
-

Polling Clerk

Independent Electoral and Boundaries Commission (IEBC)

August 2017

Polling Clerk

Murang'a University of Technology

February 2019

AWARDS AND CERTIFICATIONS:

- Certificate of Completion: Bible Exposition Self Training Program, FOCUS Kenya
- Certificate of Leadership: Murang'a University of Technology Christian Union
- Certificate of Training: Google Digital Skills (E-Mobilis Kenya)
- Certificate of Participation: Ministry of Education, Kenya National Drama Festival
- Certificate of Participation: Murangá University of Technology Cultural Week
- Certificate of Participation: Murangá University of Technology CU Creative Night
- Participated in Capital Market Authority Training, Murang'a University of Technology
- Participated in Christian Leaders Training, Murang'a University of Technology

LEADERSHIP POSITIONS:

- Secretary
Electoral College Murang'a University Christian Union
September to Oct 2018
- University Christian Union Representative Member
Northern Nairobi Student Executive Council-FOCUS Kenya (Fellowship of Christian Unions)
2017 to 2018
- Secretary
Murang'a University of Technology Christian Union
2017 to 2018
- Student Electoral Commission (SEC) Commissioner
Murang'a University of Technology
2017 to 2018
- Secretary
Technical Department, Murang'a University of Technology Christian Union
2016 to 2017

ADDITIONAL SKILLS AND COMPETENCIES:

- Writing articles on real-life situations, creative writing, and inspirational as well as scriptural writing. I'm also good at oral skills hence I run a You Tube channel
Name: Lots of Great with Mercy
Link: <https://youtu.be/YELR1552ZIQ>
- Moderating and TV Casting- I have previously facilitated
 - ✓ Bambika Show of Citizen TV
 - ✓ Murang'a University Creative Night
 - ✓ Have been a panelist at Nyarari Show Media Max
- Mentorship and Volunteer Work

HOBBIES:

- Travelling
- Cooking
- Writing

REFEREES:

Please feel free to contact the under mentioned in regard to my competence, work ethic and performance.

CURRICULUM VITAE

Personal Details

Name: Brian James Wanderi

Nationality: Kenyan

Place of Birth: Kiambu

Date of Birth: 20/07/1992

Phone Number: 0707012007

Email: brianwanderi2@gmail.com

Languages: English, Kiswahili and Kikuyu

Career Objective

Seeking a dynamic and progressive development environment where i can use my knowledge and expertise in either Electronics or Renewable Energy, to continuously grow and learn new cutting edge technologies in a professional environment.

Personal Statement

A motivated, adaptable and responsible person, seeking a job opportunity. In My completed degree program, I successfully combined two course majors (Electronics and Renewable Energy), work study, (physics lab) and other commitments showing myself to be self-motivated, organized and capable of working under pressure, I have a drive to see things to completion. I am reliable, trustworthy, hardworking, and eager to learn and have a genuine interest in technology. I enjoy working on my own initiative or in a team.

Educational Background

March 2012 to August 2015

Masinde Muliro University of Science and Technology

BSc. Physics (renewable Energy and Electronics)

- Electronics (I, II, III)
- Radio Communication
- Optoelectronics
- Microprocessors
- Microprocessor Interfacing
- Programming (C, C++), python
- Quantum Physics
- Electricity, Magnetism and Circuit Theory
- Modern Physics
- Photovoltaics (I,II,III)
- Biomass Energy
- Wind Energy
- Ocean and Marine Energy
- Solar Thermal Energy
- Hydro-energy
- Geothermal Energy

And many more courses that are part of the B.Sc. Physics (electronics and Renewable Energy Option) program including supporting studies such as: Mathematics, Communication skills, Quantitative Skills, Development Studies, Projects, Industrial Management, entrepreneurship and general education.

Feb 2007-Nov 2010

Aga Khan High School

K.C.S.E Mean Grade B+(72 points) With As in Mathematics and sciences and an A-in English.

Awards

- I. Best student in Computer Studies Form
 - 1 II. Best student in Biology Form 1
 - III. Best student in Computer Studies Form 2
 - IV. Best student in computer Studies Form
- Head Prefect- library

Work Experience

March 2015 – Current

The Green Camel Investments ltd

Responsibilities

- I. Establishing new and maintaining existing, relationships with customers.

- VI. Supervise Installation of PV systems including Hybrid systems with gensets depending on client specification.
- VII. Conducting Sites Surveys.
- VIII. Installation of data loggers and performing solar power analysis for potential Clients using RPM-416 data analysis software.
- IX. Offering after sales support services.
- X. Supporting marketing team by attending trade shows, conferences and other marketing events.
- XI. Analysing costs, sales, calculating client quotations and identifying affordable suppliers.
- XII. Preparing reports for the company Director.

December 2018-February 2019

Head Technical Sales at Uni Supplies and Marketing (K)

Responsibilities

- I. Establishing new and maintaining existing, relationships with customers.
- II. Sizing and design of solar power systems using PVsyst, SMA sunny Design Web software and PVsim (from Total.)
- III. Solarization of Existing water pumps.
- V. Coordinating sales projects.
- VI. Making technical presentations and demonstrating how our power solutions will meet client needs.
- VII. Supervise Installation of PV systems including Hybrid systems with gensets depending client specification.
- VIII. Conducting Sites Surveys.
- IX. Installation of data loggers and performing solar power analysis for potential Clients using RPM-416 data analysis software.
- X. Offering after sales support services.
- XI. Supporting marketing team by attending trade shows, conferences and other marketing events.
- XII. Analysing costs, sales, calculating client quotations and identifying affordable suppliers.
- XIII. Preparing reports for the company Director.

- I. Establishing new and maintaining existing, relationships with customers.
- II. Sizing and design of solar power systems using PVsyst, SMA sunny Design web software, and PVsim (from Total).
- III. Solarization of Existing water pumps.
- V. Coordinating sales projects.
- VI. Making technical presentations and demonstrating how our power solutions will meet client needs.
- VII. Supervise Installation of PV systems including Hybrid systems with gensets depending client specification.
- VIII. Conducting Sites Surveys.
- IX. Installation of data loggers and performing solar power analysis for potential Clients.
- X. Offering after sales support services.
- XI. Supporting marketing team by attending trade shows, conferences and other marketing events.
- XII. Analysing costs and sales and calculating client quotations.
- XIII. Preparing reports for the company Director.

May 2014- June 2016

Solar Technician at Go Solar Systems Ltd.

Responsibilities

- I. Sizing of PV and Solar Water Heating systems for clients.
- II. Installation of PV and SWH systems depending client specification i.e. complete standalone systems, battery backups, solar streetlights, solar water pumps, pressurized and non-pressurised solar water heating systems.
- III. Replacement of used up batteries in backup systems.
- IV. Replacement of FET boards for defective inverters and charge controllers.
- V. Delivery of PV Equipment for Clients.
- VI. Field assignments for PV installation in Marginalized schools and Hospitals.

Apr 2012-June 2014

- IV. Recalibration of Ammeters and Voltmeters.
- V. Testing of new lab Equipment and recording Zero error.

Licensing

Licensed by the Energy Regulatory Commission, solar photovoltaic technician class T3 license number: ERC/SPVT/00560.

Licensed by the Energy Regulatory Commission, Solar hot water technician license number: ERC/SWHST/00200.

Active Member of the Association of Energy Professionals East Africa.

Achievements

Participated in the Ministry of Energy and Rural Electrification Authority Projects where I supervised mounting of solar panels and system installation in several schools and dispensaries in Kajiado North, Mwingi and Isiolo counties.

Design, installation and commissioning of two 60 KW PV-Diesel Generator Hybrid systems in Mandera county for the Rural Electrification Authority.

Attended two-day training on SMA micro-grid installations at the Strathmore research Energy center.

Proefficient with Total safety golden rules having a two day training session and issued with a working passport for all their service stations.

Conversant with sunny design PV software, PVsyst, PVsim and Lorentz compass for solar water pumping systems.

Referees

Name: Mr. F.M Gaitho-H.O.D physics Department at Masinde Muliro University.

MASINDE MULIRO UNIVERSITY OF SCIENCE AND TECHNOLOGY

This is to certify that

Brian James Wanderi

having satisfied the requirements
for the award of the degree of

**BACHELOR OF SCIENCE IN
PHYSICS**

Second Class Honours (Lower Division)

was admitted to the degree at a congregation held
at this University

on the Fourth Day of December
in the Year Two Thousand and Fifteen

ice-Chancellor

Deputy Vice-Chancellor
(Academic Affairs)

SOLAR PHOTOVOLTAIC TECHNICIAN
LICENCE

Licence Number: EPRA/SPVT/00560

Name: BRIAN JAMES WANDERI
National ID/Passport No.: 29931363

THIS LICENCE ENTITLES THE HOLDER TO CARRY OUT
INSTALLATION, TESTING, INSPECTION AND
COMMISSIONING OF ADVANCED SOLAR PV
SYSTEMS WORK INCLUDING GRID
CONNECTED & HYBRID SOLAR PV SYSTEMS

Nationality : Kenyan
Country of residence : Kenya
Email : crispuskihara20@gmail.com
Marital status : Married
Language : English and Kiswahili
Phone : 07214750075

Experience

1. Civil Structural Engineer

-Green Camel Investments Ltd

-Dates Employed Nov 2014 – Present

Responsibilities

- Analyze long range plans, survey reports, maps, and other data to plan and design projects
- Consider construction costs, government regulations, potential environmental hazards, and other factors during the planning and risk-analysis stages of a project
- Compile and submit permit applications to local, state, and federal agencies, verifying that projects comply with various regulations
- Oversee and analyse the results of soil testing to determine the adequacy and strength of foundations
- Analyze the results of tests on building materials, such as concrete, wood, asphalt, or steel, for use in particular projects
- Prepare cost estimates for materials, equipment, or labor to determine a project's economic feasibility
- Use design software to plan and design transportation systems, hydraulic systems, and structures in line with industry and government standards
- Perform or oversee surveying operations to establish building locations, site layouts, reference points, grades, and elevations to guide construction
- Manage the repair, maintenance, and replacement of public and private infrastructure
- liaising with clients and a variety of professionals including architects and subcontractors
- compiling job specs and supervising tendering procedures
- resolving design and development problems
- managing budgets and project resources
- scheduling material and equipment purchases and deliveries

- making sure the project complies with legal requirements, especially health and safety

2. Structural Engineering

Postgraduate Student, University of Sheffield

Company Name University of Sheffield

Dates Employed Sep 2013 – Sep 2014

Employment Duration 1 yr 1 mo

Location Sheffield, United Kingdom

I was trained in new and novel techniques in Structural Engineering.

2. Site Engineer

HYoung EA Ltd

Dates Employed Nov 2012 – Sep 2013

Location Naivasha

Responsibilities

- undertaking technical and feasibility studies including site investigations
- using a range of computer software for developing detailed designs
- undertaking complex calculations
- liaising with clients and a variety of professionals including architects and subcontractors
- compiling job specs and supervising tendering procedures
- resolving design and development problems
- managing budgets and project resources
- scheduling material and equipment purchases and deliveries
- making sure the project complies with legal requirements, especially health and safety
- assessing the sustainability and environmental impact of projects
- ensuring projects run smoothly and structures are completed within budget and on time

3. Intern Engineer

Worked at Olkaria IA Geothermal Power Station

Nairobi Metropolitan Development Ministry

Dates Employed Oct 2012 – Dec 2012

Location KICC

Road construction at Gitaru (D410)

Educational Background

1. The University of Sheffield

Dates attended 2013 – 2014

Degree Name Master of Science (M.Sc.) Field of Study Structural Engineering Grade Distinction

2. University of Nairobi

Master of Science (MSc) in Structural Engineering

3. University of Nairobi

Bachelor of Science (B.Sc.) Field Of Study Civil Engineering

Grade First class Honours

MEMBER

MEMBER

CURRICULUM VITAE

Proposed position: Electrical Technician

Name Of The Firm: The Green Camel Investments Ltd

Name of The Staff: David Ndungu Mburu

Profession: Electrical Technician

Date of Birth: 15th October 1978

Years with Firm: 9 years **Nationality:** Kenyan

Membership in professional societies: Kenya Renewable energy association.

Detailed Tasks Assigned:

1. Awarded contract services for installation, testing and commissioning of Solar PV system in primary schools in the off grid county of Lamu, Baringo.
2. Design, installation ,testing and commissioning of a 50KW grid solar PV Generation Plant at Takaba Diesel power station.
3. Installation, testing and commissioning of solar water pumps to 17 public shallow water well in Turkana, Moyale and Marsabit Districts.

Key Qualifications:

ASSIGNMENT	RESPONSIBILITY	TASK	DATE	LOCATION
Installation ,testing and commissioning of Solar PV system in primary schools (REA SPO NO.40019979)	Technician	Assuring professional installation.	October 2014	Baringo county
Design, installation ,testing and commissioning of a 50KW grid solar PV Generation Plant at Takaba Diesel power station. (REA/12-13/OT/029)	Technician	Assuring professional installation	July 2013	Takaba
Installation, testing and commissioning of solar water pumps to 17 public shallow water well in Turkana, Moyale and Marsabit Districts. (MOE/PNT/09/2010-2011)	Technician	Assuring professional installation	December 2011	Moyale and Marsabit

Education:

Year:	Institution
1999-2001	Kenya Polytechnic (Diploma Electrical and Electronic Engineering)
1993-1997	Rwegetha Secondary School (certificate)
1985-1992	Mabae Primary School (certificate)

Employment record:

Organization: The Green Camel Investments Ltd

Position: Technician

Date: September 2011 – to date

Duties:

- Industrial and domestic electrical system design ,installation and upgrading
- Design of protection system for industrial and domestic electrical systems
- Designing /sizing of UPS ,solar and power back up systems
- Installation and commissioning of UPS's (line interactive and true online)ranging from 400va to 125kva (single phase and three phase)& power power back up system
- Installation of solar system (PV & water heating)
- Repairs ,servicing and maintenance of such systems
- Scheduling & implementing preventive maintenance services.

Organization: Kenital solar limited

Position: Workshop manager and Technical Salesman

Date: Oct 2002 – Aug 2005

Duties:

- Overall workshop organization
- Organizing installation
- Attending emergencies on various systems
- Installation, inspection, testing and commissioning installation
- Training new employees on product knowledge
- Product training to dealers

Work Experience

1. 2016- 2017 Civil/structural Engineer for a Proposed Residential Apartments Development in kiambu road. (The Alma)
- Project Civil Engineer for Proposed Hostels for Karatina University. 7 storey students' hostels.
- Project Civil Engineer Thomas Burke Primary school Phase 3, Buruburu for the Archdiocese of Nairobi.
- Project Civil Engineer for Proposed Pillar Place Mixed Use Development on Thika Road opposite.
- Project Civil Engineer for the proposed Bungoma County Assembly
- Project Civil Engineer for Proposed mixed use development on LR No. 5919 Nairobi, Ngong Road.
- Project Civil Engineer for Proposed Service station for Oryx Energy on Jogoo Road.
- Project Civil Engineer for Proposed Live well Hotel on LR 231/159 Kikuyu.
- Project Civil Engineer for Proposed student Hostels for Kathiani High School
- Project Civil Engineer for Proposed residence for Wardy communications Ltd on LR No. 12241/21 Nyari Nairobi.

2008-2014 Project Civil Engineer- for the proposed Two Rivers Retail, Entertainment and Lifestyle project Located in Runda Nairobi between Limuru Road and the Northern Bypass this Mixed Use Development project by Centum Investments Ltd covers over 120,000 square meters and costs over Ksh. 10B.

It comprises of expansive retail malls, cinemas, hotels, restaurants, motor show rooms, substations, water towers, roads, basement and roof parkings and two NO.10 storey office towers and attendant infrastructure. As the project lead structural engineer my roles include developing and coordinating concept design, overseeing geotechnical investigations, production of drawings and specifications, review of documentation, quality control and construction supervision.

Project Civil Engineer for Olkaria IV & I Additional Units 4 & 5 280MW Geothermal Power Generation Project. The project entailed the construction of two 140MWe power-plants, cooling towers, steam pipelines, 220KV/132KV substations, H.V transmission lines, roads and associated infrastructure works. As the site engineer in charge of civil works and working with a team of engineers from diverse disciplines, my roles included reviewing of designs, drawings, reports (such as geotechnical investigation, concrete design and testing), inspection and supervision of construction activities, planning coordination meetings, monitoring quality control on site, preparing progress reports for use by the project manager and generally day to day monitoring of construction activities to ensure compliance with employer's requirements and technical specifications.

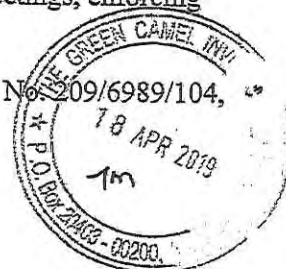

2006-2008 Civil/Structural engineer

Responsible for design of projects and production of all the structural and civil drawings and specifications,

prepare engineering proposals and reports, coordinate planning, submission of drawings to relevant authorities for approval,

liaising with other project consultants, attending site and consultants meetings, enforcing material quality control and supervision of works.

Civil Engineer for the "Kihingo Village" residential project on plot LR. No. 209/6989/104, Kitusuru, Nairobi, KENYA.

P O Box 19721 – 00100

Nairobi, Kenya.

Work Experience

Green Camel Factory Construction Project Overall Foreman Manager—Green Camel Investments Ltd

-Dates Employed: Nov 2014 – Present

Essential Duties and Responsibilities

1. Assists the Construction Manager in ensuring that all assigned in-house construction projects are implemented, scheduled, and completed utilizing safe, structurally sound materials and methods while meeting The company standards.
2. Serves as an active member of the Campus Construction Team by performing work in the construction, repair, replacement, patching, remodelling, alteration, and finishing of building structures, facilities, furnishings, and exterior pavement, inspecting the site to determine the materials, equipment, tool requirements, and method to be used, developing plans or layouts for the projects and/or following blueprints, sketches, or schematics as well as written and verbal instructions, fabricating, building, or installing materials, equipment, and fixtures as required by the scope of work, and safely operating hand tools, power tools, and construction equipment appropriate to the assigned task.
3. Supervises the work of highly skilled construction trades staff (both full-time and part-time) in the construction, repair, replacement, patching, remodelling, alteration, and finishing of building structures, facilities, furnishings, and exterior pavement.
4. Assures completion of assigned projects with quality workmanship by assigning the level of manpower needed to successfully complete the work, planning and scheduling daily work activities, arranging for supplies and equipment for work projects, instructing staff with regard to expectations, providing direction in the proper performance of the work, monitoring work performance, inspecting the final product for conformance with specifications, standards, and expectations, providing direction with regard to correction of any deficiencies as necessary, redirecting work efforts to meet critical and/or necessary work requirements, and recommending the use of additional departmental personnel or contract personnel (as appropriate) to meet assigned completion targets.

5. Ensures that company projects property and equipment is protected from damage during assigned work by directing the removal of furniture, wall fixtures, and equipment from work sites if possible or covering immovable items with protective cloths, using painting cloths or tarpaulins to cover floors and masking tape to protect woodwork, facings, and decorative trims, and supervising the construction of safe scaffolding in order to prevent damage.

6. Assists with the development of a competent and efficient construction workforce by recommending the employment of qualified applicants, training departmental personnel (as necessary) in the proper use of test equipment, hand and power tools, building materials and equipment, proper painting techniques, installation of equipment, paint sprayers, blowtorches, and shop safety; demonstrating appropriate work methods, making work assignments based upon an evaluation of job requirements and individual expertise, providing oral and/or written instructions, monitoring the progress of work, and inspecting work to ensure standards of workmanship, job safety and code compliance.

7. Assists with documenting the project work including time and materials within the Computerized Maintenance Management System and providing periodic status reports to the Construction Manager regarding the status of work projects, material consumed, and man-hours utilized.

8. Assures that assigned trades personnel have the equipment and supplies necessary to perform their work by monitoring the use of supplies and materials, estimating future material usage, requisitioning those supplies and equipment, distributing supplies/materials and equipment as required, and advising the Construction Manager regarding potential shortages, recommended replacement items, or related equipment needs.

9. Provides technical assistance in the purchase of new or replacement shop tools and equipment by evaluating available construction tools and equipment in order to standardize them, reviewing and preparing equipment specifications, recommending the purchase of paints, tools, and equipment that are compatible with existing color schemes or equipment that meet the needs of the department; and advising the Construction Manager on shop equipment capabilities and compatibility, installation requirements and costs, and potential operations and maintenance expenses.

10. Promotes preventive maintenance as a strategy in maintaining construction tools and equipment by assisting in the development and monitoring of preventive maintenance programs; keeping accurate records on all equipment indicating all repairs/breakdowns and required and performed maintenance, performing spot checks of equipment to determine their working condition, and performing and/or directing periodic cleaning and servicing of tools and test equipment.

11. Assists the Construction Manager in working with Planning, Design & Construction as well as consultant architects and engineers to construct projects in strict accordance with construction plans, maintains documentation of project communication, prepares documentation of as-built conditions for The company records, and assists the Construction Manager in ensuring cooperation and coordination with other areas with Facilities Management as well as other departments at the company.

12. Reduces the likelihood for liability regarding the company's compliance with federal regulations by complying with and enforcing policies, laws, and regulations governing

environmental protection, safety, hazardous waste disposal and the use of chemical substances and materials.

14. Contributes to a safe accident-free work environment by enforcing operator's instructions for the proper use of power tools, power sprayers, and equipment, directing personnel to wear protective gear such as filter respirators, goggles, hearing protectors, back supports, and work gloves; making on-the-spot corrections of unsafe work activities, investigating on-the-job accidents or injuries and reporting the incidents to supervisors, and following standard safety precautions during work.

15. Assists the Construction Manager in the preparation of estimates for construction costs associated with in-house construction projects and provides necessary input for the development of working drawings, details, and project work.

16. Contributes to the overall success of the Facilities Management by performing other essential duties and responsibilities as assigned.

SUPERVISION

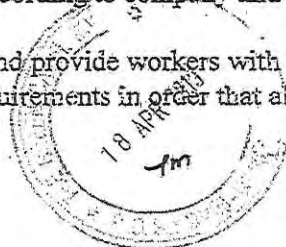

The Construction Foreman is supervised by the Construction Manager, however generally operates independently within established guidelines and policies and exercises supervision of full-time and temporary construction trades personnel as required.

2. Manager Civil-Tata Chemicals Ltd.

Dates Employed: Jan 2013 – Apr 2015

Project Management Job Responsibilities

3. Oversee, schedule and arrange crew work on a daily basis, cooperating with other team members as necessary.
4. Review all project activities, work equipment and sites every day to make sure everything is performed to company standards as well as to the latest regulations and standards.
5. Locate, calculate and designate job site locations as well as equipment and job site structure locations as needed.
6. Work with other necessary personnel and supervisors to ensure all site and crew activities are in sync.
7. Delegate jobs to crew members as determined by their capabilities and the general requirements of specific work projects and site parameters.
8. Meet with other managers/supervisors and necessary personnel as required in order to fully resolve conflicts, complications and other issues according to company and client standards/requirements.
9. Train new crew members whenever they join the team and provide workers with continuing education according to the latest industry requirements in order that all work meets the most current specifications.

3. Site Agent: Zam

Dates Employed: Jan 2014 – Dec 2014

Location: Mwinilunga Zambia

Upgrading of township roads to bitumen standard

liaising with clients and a variety of professionals including architects and subcontractors

- compiling job specs and supervising tendering procedures
- resolving design and development problems

Naomi Wambui Wagura

+254 726 339 990 | nwagura@gmail.com | P.O Box 54338 – 00200 Nairobi

Naomi Wambui Wagura is a Renewable Energy Engineer, with experience working in the energy access space. She has experience designing and implementing solar PV projects in East Africa for micro grids and commercial use.

She has a Bachelor of Science in Energy Engineering which provided her with an in-depth study of energy sources with particular emphasis on renewable energy including solar, wind and biomass. She also has basic financial knowledge acquired from completing the fundamental level of the A.C.C.A. certification.

She is passionate about using renewable energy to reduce energy poverty in Africa.

Key qualifications:

- Solar PV design for off-grid and on-grid applications
- Project planning
- Installation, operation and maintenance of solar PV systems
- Writing of technical and financial proposals
- Experience conducting social and engineering surveys for micro grids

Education & Training:

2008-2013	Kenyatta University, BSc. Energy Engineering
2007 – 2010	Association of Chartered Certified Accountants (A.C.C.A – Level II)

Selected Relevant Experience in Africa:

2015 – Ongoing: Powering Agriculture with Renewable Energy

TECHNICAL SUPERVISOR

ASD and Ariya were among 13 winners chosen from nearly 1000 candidates for the Powering Agriculture Energy Grand Challenge (PAEGC), administered by USAID with support from various donors. Our team seeks to overcome existing barriers to development by use of a renewable energy systems leasing to service large-scale industries in Kenya, Tanzania and Uganda.

2013 – 2016: Off-grid PV micro grids in Kenya and Tanzania

TECHNICAL SUPERVISOR

Design, installation, operation and maintenance of over 20 micro grids in varying in size from 1.5 – 10kW in off-grid areas in Kenya and Northern Tanzania

2015: Design and implementation of a 10kW solar PV system powering an RO system for irrigation – Turkana, Kenya

Conducted feasibility, designed and oversaw installation of an AC-coupled PV system to run a RO desalination plant to enable use of water from Lake Turkana for irrigation.

2015 – 2016: Installation of a 74kW solar PV system for a conservancy - Laikipia, Kenya
PROJECT ENGINEER

Conduct site surveys, costing and manage installation of 2 34kW PV systems to provide power to a conservancy.

2015: Installation of solar PV systems and LED floodlights – Kenya and Mozambique

ENGINEER

Managing installation of 6 solar PV systems powering LED floodlights for Philips Africa's Community Lighting Centers initiative.

2014: Micro grid survey of Mwanza region, Tanzania

ENGINEER

Survey sample districts in the Mwanza region for feasible micro grid villages; surveyed 5 districts in the region.

Employment record:

May 2016 to present: Technical Supervisor The Green camel Investments Ltd, Kenya

- Designing solar PV and small wind systems ranging in size between 1kW to hundreds of kW for commercial entities and micro grids
- Managing installation of solar PV and small wind systems
- Project coordination
- Conducting solar feasibility studies
- Building and maintaining client relationships
- Establishing company procurement processes for international procurement
- Designing solar water pumping systems for irrigation, residential use, community water projects etc.
- Writing technical and financial proposals for commercial and institutional clients

May 2013 to July 2013: Engineer – Steelstone Kenya Ltd

Designing solar and other battery-based systems, conducting site surveys, installing solar water heating systems and working in the solar water heating assembly workshops

May 2011 – July 2011: Intern – Kenya Electricity Generating Company, Olkaria, Naivasha
Recording geothermal drilling data and working in the drilling rig and electrical maintenance workshop.

May 2010 – August 2010: Intern –

Achelis Material Handling Ltd, Kenya

Working in the Power Systems Division conducting site surveys for diesel generators, preparing tenders, generator sizing and taking part in maintenance of diesel generators.

CAREER PROFILE:

I am a focus driven professional experienced in identifying operational requirements, creating, implementing plans, handling processes involved in manufacturing and maintenance of engineering equipment's, and effectively coordinating with cross functional teams to achieve objectives as well as good experience in technical sales.

CAREER OBJECTIVE

Looking forward for a new challenging position; one that will improve and modify my skills and improve my experience in management and leadership

KEY PROFESSIONAL SKILLS:

- Knowledge of record keeping methods and procedures applicable to purchasing.
- Knowledge of preparing of bill of quantity and quotation generation for tendering process.
- Ability to establish and maintain effective working relationships with institutional officials and contractors.
- Well versed in Computer Packages Word, Excel, Access, Power-point, Ms. – Project, AutoCAD and Internet.

PROFESSIONAL EXPERIENCE

Technician

The Green Camel Investments Ltd.

June 2016 to present

Duties and Responsibilities

- Conducting site surveys and assisting clients with technical consultation in matters regarding energy management and power backup.
- Sizing for solar, inverter-based and/or generators power backup systems.
- Delivery, installation and commissioning of energy backup systems above to clients after sale.
- Troubleshoot maintenance service and repair of portable generators as well as generator sets.
- Installation/maintenance/troubleshoot of solar and inverter-based power backup systems.
- Design of custom-made automation systems

Design/ Fabrication Junior Engineer

ASL Ltd.

January 2016 to May 2016

Duties and Responsibilities

- Design of fabrication equipments including milk storage tankers, pasteurizers, cooling tanks, milking cans among other processing plant equipments with AutoCAD.
- Discussing designs at board meetings and making adjustments to obtain approval by company authority.
- Supervise fabrication process to completion to ensure client satisfaction is met.
- Site visit to locate equipment installation positions and advise clients accordingly.

Technical Maintenance Assistant,

Kabarnet Water Treatment Company,

May 2015 to October 2015.

Duties and Responsibilities

- Maintenance of a water treatment plant which includes pumps; compressors (High pressure/Low pressure); cooling towers; ultra-filtration machines; pre-form blowing machines; shrink machines; fluid chilling and carbonation machines; automatic rinsing, filling and capping machines and chlorine and/or lime dosing machines.
- Maintenance and repair of backup generators.
- Installation/maintenance of power factor correction to near unity to ensure efficient consumption of kVA provided by KPLC into kW by plant 3 phase inductive loads.
- Maintenance and repair of goods lifts
- Maintenance and repair of fuel station pumping and metering system

Intern,

Base Titanium Kwale Project,

May 2014 to August 2014.

Duties and Responsibilities:

- Helped in operation, maintenance and repair of dozer mining unit used in collaboration with dozers, graders, loaders and excavators.
- Worked with geologists in creation of tailing dam drains as well as collecting water head using piezometers and developing charts of the same using excel as well as maintenance of high pressure pumps and designing series and/or parallel arrangements of the same.
- Compiling of maintenance report for audit purposes
- Presenting of findings and recommendations of project areas

- Ensure that contractors adhere to company environmental, health and safety policies and procedures.
- Participate in the evaluation of performance for maintenance contractors.
- Track equipment's installation, transfers and write offs.

**Attachment,
Kenya Seed Company,
January 2014 to April 2014.**

Duties and Responsibilities:

- Doing maintenance and repair of seed processing plant
- Maintenance of cobs burner, boiler and driers
- Designing and fabricating of parts for replacement within the plant.
- Repair of tractors, fork lift, agro – mechanical machines and all forms of automobiles used in the agricultural industry.

**Attachment;
Kenya Wildlife Service,
January 2013 to April 2013.**

Duties and Responsibilities:

- Doing regular maintenance and service of land cruisers used in the rough terrain
- Designing and fabricating of parts for replacement within the workshop.
- Maintenance and repairs of Lorries, buses and tractors including engine overhaul and gearbox assembly.

AWARDS AND CERTIFICATIONS

- President's Award – Gold level award.
- Red Cross Society – Certificate of first aid training.
- Mombasa Regional Blood Transfusion Center – Certificate of blood donation training
- Certificate of Appreciation – Contribution to blood donation.
- United Nations volunteers – Certificate of participation in peaceful election training.
- Kenya Wildlife Service – Certificate of participation during 20th anniversary of Hells Gate national park.
- Ministry of Education – Certificate of participation in national music festivals

Interests/Hobbies:

- Listening to music and making new friends
- Passionate about football

PERSONAL DETAILS:

Date of Birth	:	5 / 1 / 1989
ID NO.	:	26177851
Religion	:	Christian
Language Proficiency	:	English, Kiswahili and Pokot
Sex	:	Male
County	:	West Pokot
Nationality	:	Kenyan

CAREER OBJECTIVE:

To use my electrical engineering knowledge, skills and expertise to full potential in serving both the public and private sector with diligence.

EDUCATION BACKGROUND

September 2008 – November 2011: DIPLOMA in Electrical Engineering (Power)

- Industrial Organization and management
- Power Electronics
- Trade & Entrepreneurship projects

Feb 2003- Nov 2006 : Kenya Certificate of Secondary Education (KCSE),
Chewoyet High School – Kapenguria.

- ✓ Attained a mean grade of B (Plain) in Kenya

Jan 1995 – Nov 2002 : Kenya Certificate of Primary Education (KCPE)
Sina School – Kapenguria.

- ✓ Attained 336 Marks out of 500

WORK EXPERIENCE

September 2012 DEC to Date: THE GREEN CAMEL INVESTMENT LIMITED

Responsibilities:

- ✓ Undertaking line clearance on high transmission and low voltage lines i.e 33kV/11kV Bomet feeder.

May 2012 to August, 2013: Electrical Technician: Unga Farm care (E.A) Ltd Dakar Road Branch – Nairobi, KENYA.

Key Responsibilities undertaken /achievements

- ✓ Oversaw electrical machine operations and carried out routine maintenance
- ✓ Carried out faulting, trouble shooting, diagnosis and resolved electrical problems in the control system and equipment's.
- ✓ Carried out scheduled routine maintenance services on plant machines.
- ✓ Prepared field reports pertaining to faulting and routine maintenance done.
- ✓ Ensured strict observance and compliance with safety, health and environmental (SHE) measures and regulations.
- ✓ Carried out installation of new machines.

- ✓ Maintenance of standby generators.
- ✓ Performed Meter reading.
- ✓ Carried out motor overhaul.
- ✓ Worked on programmable logic controls (PLC).
- ✓ Performed faulting, diagnosing and calibration of scales.

September - December 2010: Underwent Industrial training at **Turkwel Hydro power Station** in West Pokot County at the department of Electrical section.

Key Achievements:

- ✓ Performed installation of street lighting, maintain air conditioners, installed both delta and star motors connection and other home appliances that use electrical to operate.
- ✓ I also did overhaul maintenance of water driven turbines starting from generator to the prime movers.
- ✓ Performed mega on the transformer terminals which were linked to generators terminals.

SHORT COURSES ATTENDED:

May 27th – July 2nd 2013 : **Cotech Training Centre –Nairobi, KENYA.**

- ✓ Trained on basic computer knowledge and excelled in the following computer packages;

- ❖ Introduction to computer
- ❖ Microsoft word
- ❖ Micro soft Excel
- ❖ Micro soft Access
- ❖ Micro soft PowerPoint
- ❖ MS publisher
- ❖ Page maker
- ❖ Internet & E-mailing

May 24th- June 26th 2013 : **Wings driving school –Nairobi, KENYA.**

- ✓ Hold valid class **B-C-E** driving license

October 10th – 24th October, 2011: Railways Training Institute –Nairobi, Kenya.

- ✓ Attained Computer Course in Information Communication (Technology (I.C.T.) Department).

PROFESSIONAL MEMBERSHIP

- ✓ **Hold Electrician Licence class C2 from: ENERGY REGULATORY COMMISSION**
 - *This entitles a holder to carry out electrical installation work for connection to a single phase supply at low voltage to up to two storey residential and commercial buildings not used as factories or places of public entertainment.*

HOBBIES AND INTERESTS

- △ Watching football
- △ Reading
- △ Community services

SPECIAL SKILLS, QUALITIES AND ABILITIES

- Sound professional training.
- Excellent communication skills and good public relations.
- A good manager who cultivates team spirit and motivates staff.
- Analytical skills and sound decision making.
- Excellent in leadership and coordination skills.
- Ability and willingness to accept instructions, accept criticism and positive feedback, while being very adaptable and flexible.
- Strict follower of plans and adherence to laid down rules.
- Versatility and capacity to produce quality work even when under pressure.
- Quick learner able to adjust to new work environment with ease and enthusiasm.

PERSONAL ASSESSMENT

I do believe that I am a hardworking, trustworthy and result oriented individual. I am also a good listener who pays attention to details and can work very well even with minimal supervision.

CURRICULUM VITAE

Proposed position: Building Technician

Name Of The Firm: The Green Camel Investments Ltd

Name of The Staff: Dave George Adhiambo were

Profession: Electrical Technician

Date of Birth: 19th October 1978

Years with Firm: 8 years **Nationality:** Kenyan

Membership in professional societies: Kenya Renewable energy association.

Detailed Tasks Assigned:

1. Awarded contract services for installation, testing and commissioning of Solar PV system in primary schools in the off grid county of Lamu, Baringo.
2. Design, installation ,testing and commissioning of a 50KW grid solar PV Generation Plant at Takaba Diesel power station.
3. Installation, testing and commissioning of solar water pumps to 17 public shallow water well in Turkana, Moyale and Marsabit Districts.

Key Qualifications:

ASSIGNMENT	RESPONSIBILITY	TASK	DATE	LOCATION
Installation ,testing and commissioning of Solar PV system in primary schools (REA SPO NO.40019979)	Technician	Assuring professional installation.	October 2014	Baringo county
Design, installation ,testing and commissioning of a 50KW grid solar PV Generation Plant at Takaba Diesel power station. (REA/12-13/OT/029)	Technician	Assuring professional installation	July 2013	Takaba
Installation, testing and commissioning of solar water pumps to 17 public shallow water well in Turkana, Moyale and Marsabit Districts. (MOE/PNT/09/2010-2011)	Technician	Assuring professional installation	December 2010	Moyale and Marsabit

Education:

Year:	Institution
2003-2006	SOS Technical Training Institute (Certificate Electrical installation)
1995 – 1998	Wang' Apala High School (certificate)
1986 – 1994	Valley Bridge Primary school (certificate)

Employment record:

Organization: The Green Camel Investments Ltd

Position: Technician

Date: 2007 – to date

Duties:

- Installation of solar systems(PV & water heating)
- Repairs, servicing and maintenance of such above systems
- Installation of solar photovoltaic systems to individual customers in rural homes
- Installation and commission of solar photovoltaic systems in non governmental organizations
- Installation of inverters and batteries in backup systems
- Installed and serviced various wind generators

Organization: Franchise Electrical services

Position: Electrical technician

Date: Jan 2007 – Aug 2007

Duties:

- New connections and installation of typical electrical metering equipments at consumers intake/supply
- General installation and maintenance of electrical supply from distribution lines to consumers unit
- Inspection of electrical installation and data collection.
